

## Heat Seal Varnish PPX, PPZ, X-PET

### 1.Products

Name	Main Component	Base material/Coating material	Solid content %	Features	Applications
PPX-03 Improved	Polyolefin resin	Aluminum/PP	17	Low temperature seal	PTP packaging (medicine, food)
PPX-16	Polyolefin resin	Aluminum/PP	15	Low temperature seal	PTP packaging (medicine, food)
PPX-17	Polyolefin resin	Aluminum/PP	17	Low temperature seal	PTP packaging (medicine, food)
PPX-20	Polyolefin resin	Aluminum/PP	17	Low temperature seal	PTP packaging (medicine, food)
PPX-20-8A	Polyolefin resin	Aluminum/PP	20	General purpose	PTP packaging (medicine, food)
PPX-110G	Polyolefin resin	PP/ Tin	20	Airtight	Powdered milk and food cans
PPZ-210B	Polyolefin resin	Aluminum/PP	20	Easy to unseal	Pudding, jelly containers
PPZ-2092	Polyolefin resin	Aluminum/PP	20	Airtight	Milk, syrup containers
PPZ-200	Polyolefin resin	Aluminum/PP	17	Dielectric	Shoplifting prevention tapes etc.
PPZ-209B	Polyolefin resin	Aluminum/PP	20	Adhesiveness	Injection processing integrated labels
X-PET-75	Polyester resin	Aluminum/PET	24	Adhesiveness	Ventilators, PTP packaging
X-PET-246 Improved	Polyester resin	Aluminum/Aluminum	25	Low temperature seal	Chocolate packaging
Aqua 550	Ionomer resin	Aluminum/Aluminum	32	Aqua type	Chocolate packaging

## 2. Prototypes

Name	Main Component	Base material/Coating material	Solid content %	Features	Applications
PPX-NT	Polyolefin resin	Aluminum/PP	15	Non-toluene	PTP packaging (medicine, food)
PPX-209 Improved	Polyolefin resin	Aluminum/PP	18	Retort resistant	Food container cap seals
PPZ-300	Polyolefin resin	Aluminum/PP	25	Soluble in solvents	PTP packaging (medicine, food)
PPZ-403	Polyolefin resin	NY/PP	20	Adhesiveness	Food container cap seals
PE-075	Polyolefin resin	PE/PP	25	Adhesiveness	Food container cap seals
PE-10	Polyolefin resin	Aluminum/PE	18	Adhesiveness	Food container cap seals
PE-102B	Polyolefin resin	Aluminum/PE	20	Adhesiveness	Food container cap seals
PE-040	Polyolefin resin	EVA/PE	18	Easy to unseal	Lids of food containers made of polythene paper
X-PET-69	Polyester resin	Aluminum/PET	24	Easy to unseal	Food container cap seals
X-PET-N 100	Polyester resin	Aluminum/PET	25	Non-toluene, boil	Food container cap seals
PS-058A	Acrylic resin	Aluminum/PS	25	Easy to unseal	Food container cap seals

- ▶ The data contained herein are based on the results of the tests conducted in accordance with the in-house test methods, and are not standard values. Always conduct pre-use tests to ascertain the suitability of the product to your requirements. Nothing contained herein is to be construed as a recommendation for use in violation of any patents, applicable laws or regulations. It is the responsibility of the user to comply in all respects with applicable laws and regulations.
- ▶ Owing to product improvement the information contained herein may be modified without any prior notice.
- ▶ Make sure to read MSDS thoroughly before using the product.
